That's true. My question is true; you can't 15 break it down, can you?</p> <p>16 A. I just said no.</p> <p>17 Q. Yeah. And with regards to you said that 18 Miller sometimes will give you special things to do. 19 What kinds of special things?</p> <p>20 A. Any tasks that anyone needs help with. As a 21 trainee if we're in an outage I'll go work with 22 maintenance if they need help. If Eric our water guy 23 needs help with something I'll go do that with him. During our Navajo outage I was asked to go 5 out there with them for multiple things with the 6 maintenance crew and the ICE techs. For anywhere from 7 simple things as fire watch up to reading wiring diagrams 8 to rewire controls for systems.</p> <p>9 Q. What is your educational background? Okay.</p> <p>2 A. On back shifts to make sure that since there 3 is one person there, they are put in so if one person 4 were to go down, you can't get a hold of them on the 5 phone, you could at least visually see them to make sure 6 they are okay.</p> <p>7 Q. Okay. And have you ever monitored the 8 activities of Juanita Garcia?</p> <p>9 A. I've seen her in the control room from the 10 opposite plant.</p> <p>11 Q. But --</p> <p>12 A. Whenever it comes --</p> <p>13 Q. -- you would not follow her around on a 14 shift to see what she was doing or when she was doing it, 15 would you?</p> <p>16 A. No.</p> <p>17 Q.
